

## Greetings from Controlled Release Society-Indian Chapter (CRS-IC).

The mission of CRS-IC is to promote education, create awareness and to encourage scientific research towards the creation of intellectual wealth in the area of drug delivery systems in India. In an attempt to fulfil our mission, we have planned **A National Level Workshop on “Manufacturing, Characterization and Applications of Monoclonal Antibodies” on Saturday, 10<sup>th</sup> October, 2020.**

The recent years have seen phenomenal growth in the field of research and commercialization of monoclonal antibody based therapeutics. With the right confluence of Pharmacy and Biotechnology, this field is set to progress by leaps and bounds. The workshop is hence designed to provide insight into the development, manufacturing, and applications of monoclonal antibody based formulations.

Please find attached the flyer of the workshop and the link for registration.

E-certificates shall be provided to the participants upon successful completion of the workshop.

**CONTROLLED RELEASE SOCIETY INDIAN CHAPTER**

**ORGANIZES A NATIONAL LEVEL WORKSHOP ON**

**Manufacturing, Characterization & Applications of Monoclonal Antibodies**

**On Saturday, 10<sup>th</sup> October 2020 between 6.30 PM- 9.30 PM**

Time	Speaker Details	Topic
6.30 PM- 7.30 PM	<b>Dr. K. Rajeshwari</b> Founder & Managing Director, Bioklone Biotech Pvt. Ltd., Chennai, India	Making of Human Monoclonal Antibodies
7.30 PM – 8.30 PM	<b>Dr. Suneet Shukla</b> Senior Pharmacologist US FDA	Basics of Monoclonal Antibodies Drug Development
8.30 PM- 9.30 PM	<b>Dr. Sachin Dubey</b> Deputy Director- Formulation & Analytical Development, Ichnos Sciences SA, Switzerland	Role of Antibodies Based Therapeutics in the Modern Healthcare System
