Theme of Symposium

The use of computer modelling and simulation, in silico approaches, optimization tools, Artificial Intelligence, Machine Learning and technologies like 3D Printing have provided advancement in product design and drug delivery systems and helped to compress the delivery timelines. In view of this changing scenario, there is an urgent need to upgrade the scientific knowledge in this area. This one day symposium will enrich the knowledge in the domain and will help to unfold the available opportunities.

Poster Presentation

Researchers, academicians and students are invited to present their research related to the theme of the symposium at the poster presentation competition. Selection for the poster presentation is based on the abstract submitted. Best three posters will be appreciated by honoring with memento and certificates.

Submission of Abstract

- All abstracts should be mailed to cadd.dmims@gmail.com with the title of the abstract and name of the presenting author clearly mentioned in the mail.
- Abstract should not have more than 250 words.
- The abstracts should be structured and contain title (Top of the paper, Times New Roman 14, uppercase, bold), name of the authors (last name followed by initials, name of the presenting author to be underlined, Times New Roman, 10), complete address of the institution including the state, country and pincode (Times New Roman, 10), email address of presenting author, key words (not more than five, Times New Roman, 10), aim, objective, methodology, results and discussions, conclusions, references and acknowledgements.
- Last date of submission of abstract: June 20, 2022
- Intimation of acceptance will be sent by June 25, 2022
